

NOTED MEN DISCUSS TUBERCULAR GERMS

Association for Study of Disease
Uncertain as to Final
Theory.

CONTINUE INVESTIGATION

Addresses at Washington Meeting
and Report on Tubercu-
losis Congress.

WASHINGTON, May 6.—Tubercu-
losis infection from bovine and other
germs against infection through hu-
man germs was discussed at length
to-day at the meeting of the National
Association for the Study and Preven-
tion of Tuberculosis in its annual
session here. The question was not
settled, and the proposition was made
of appointing a committee to con-
tinue the study of that subject.

The question came up at the after-
noon session in the section of tubercu-
losis in children. Dr. Charles Hunter
Dunn, of Boston, had for his subject
"Recent Advances in the Knowledge
of Tuberculosis in Children." Discuss-
ing the great frequency of tubercu-
losis in early life, he said that it in-
creases from month to month and year
to year, but that in the cases in which
it was found as the cause of death it
decreases from year to year. In early
life tuberculosis did not affect the
lungs as it did in the case of the adult,
but frequently remained hidden in the
internal glands in children until an
acute form of tubercular meningitis
or pneumonia caused death. He de-
clared that children have no power of
resistance against these acute out-
breaks, and that small babies showed
no tendency toward the healing of the
disease.

Among the sources of tubercular
infection he mentioned the various theo-
ries that it was congenital, due to dust
of moist sputum, and said that while
there was truth in all of them the com-
monest source was house contamination
from tubercular surroundings. In dis-
cussing latent forms of the disease, he
said that the X-ray was the most suc-
cessful means of discovering it.

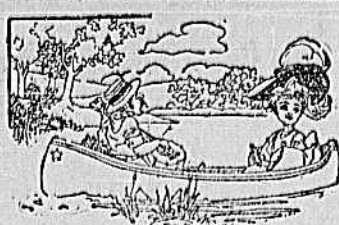

Finally he spoke on the subject of
immunizing a person against tubercu-
losis by means of vaccination. He re-
viewed the progress that had been
made in that direction and said he be-
lieved that human beings were in a
pretty good state of natural resistance,
and he held out hope of finding a vac-
cine to make that resistance absolute.
Dr. Henry L. K. Shaw, of Albany,
N. Y., in discussing the question, "The
Present Status of the Transmissibility
of Bovine Tuberculosis as Illustrated
by Infants and Young Children," ar-
gued that the usual method of acquir-
ing the disease was through the con-
tamination of man to man, not through
milk and other foods. That, however,
he said, should not cause a relaxation
of the efforts made to guard against
infection in that way.

At the morning session the delegates
listened to an address by the presi-
dent, Dr. Hermann M. Biggs, of New
York, and to the reading of a report
on the international congress on tuber-
culosis, 1905, by Dr. Lawrence F. Flick,
of Philadelphia.

Dr. Flick's Report.

Plans for the International Congress
on Tuberculosis, to be held in Wash-
ington in 1908, were described by Dr.
Lawrence F. Flick. It will include a
conference of the International Bureau
for the Prevention of Consumption.
The congress will be in session for
three weeks, one of which will be de-
voted to scientific work in Washing-
ton and two weeks to the entertain-
ment of guests and the inspection of
institutions throughout the country.
There is to be an exhibit in Washing-
ton during this time, which will give
an objective demonstration of every-
thing that can be of interest in tuber-
culosis throughout the world, and a
course of lectures by prominent work-
ers in the field of tuberculosis from all
countries outside of the United States.
The plan calls for a fund of \$100,000,
to be subscribed by twenty men, for
defrayal of expenses of the congress
and the award of prizes in the in-
terest of the crusade against tuber-
culosis. Thirty thousand dollars of the
fund has been subscribed and paid in.
The fund of \$100,000 is to be used ex-
clusively for the scientific part of the
congress.

Dr. Flick said: "The exhibit will be
a complete pathological and bacterio-
logical picture of what tuberculosis
means to man in its devastation
throughout the animal kingdom. It
will show the ravages of the disease
upon man, animals, birds and fishes.

Dreamy Days

Call for dreamy clothes. Let us remind
you we've Spring Suits that are
dreams. Like dreams, they're most too
good to be true, but we've got 'em this
season all right, and it's no dream
either.

Wake up and let us show you our
Handsome Spring Suits in the new
Grey and Brown fabrics; either single
or double-breasted Sack Suits—and a
great variety of patterns to select from.
We've Blue Serges in all sizes.

\$10, \$12.50, \$15, \$18 to \$30

Underwear

We've a great stock of Spring and
Summer Underwear, and it's here in all
sizes. Balbriggan, Gauze, Combed
Egyptian, Porous Knit, etc. All colors,
long or short sleeve shirts, knee length
or long drawers.

25c, 50c to \$1. per garment.

MAIN & 14TH STREETS

It will show the cycle of life of the
tubercle bacillus, with all its products;
the micro-organisms with which it
may be related and from which it is
derived, and the micro-organisms with
which it associates and fraternizes. It
will show the method of growth of
these micro-organisms; the changes
which they produce on the substance
on which they grow, and the restric-
tions upon their growth and develop-
ment in nature. The exhibit will give
a statistical demonstration of what
tuberculosis has meant to the world
in the past and what it means in the
present. It will show the widespread
operation of tuberculosis in every part
of the world, and how it has tram-
meled civilization. It also will show
what the crusade against tuberculosis
has so far accomplished, and what it
may accomplish in the future. It will
present models of hospitals for con-
sumptives, sanatoria, dispensaries, day-
camps, convalescent farms, consump-
tive colonies, consumptive classes, and
will show the benefits which may be
derived from these measures. It will
show the various appliances and mate-
rials used for the prevention of tuber-
culosis, and the manner of using them.
The whole world will participate in
this exhibit, so that it will be a
world's fair, so to speak, of every-
thing which can in any way bear upon
the crusade against the great white
plague.

So far the committee has announced
one prize—namely, a prize of \$1,000
for the best evidence of efficient work
done by any volunteer organization
since the last Congress on Tubercu-
losis, the prize to be awarded at the
time of the congress. Other prizes will
be announced later on.

The United States government and
State governments have been asked to
participate in the congress, with very
encouraging answers from many of them.

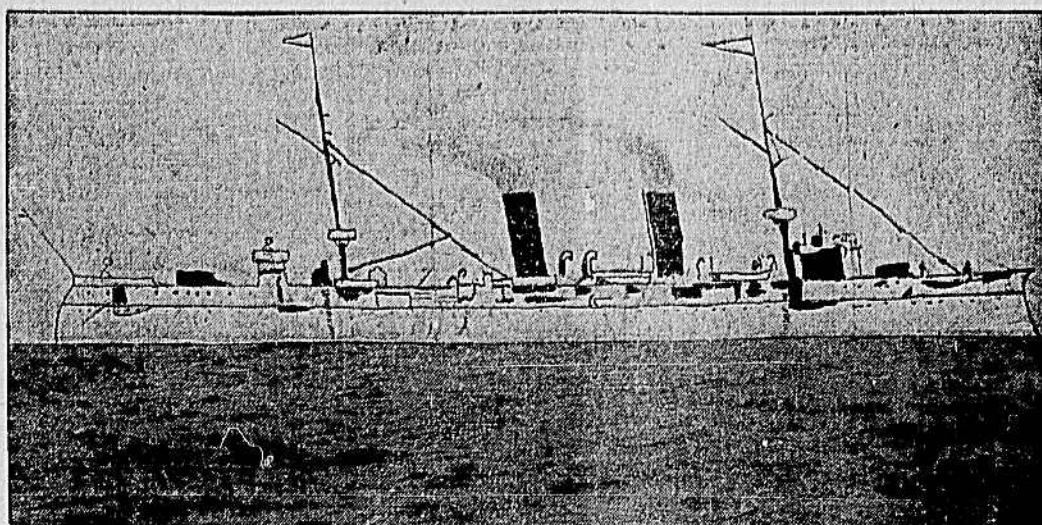

FOR FOUR-YEAR TERM.

Medical College Association De-
cides on That for Students.

WASHINGTON, May 6.—The annual
meeting of the Association of American
Medical Colleges is being held here to-
day, attended by many prominent medical
men from all over the country. Dr.
George M. Kober, of New York, who
delivered the address, welcomed the
delegates. Papers were read by Dr.
Eberth Lefevre, of New York; Dr. J.
William Means, of Columbus, Ohio; Dr.
William S. Thayer, of Baltimore; Dr.
Frank Baker, of Cleveland, Ohio; Dr.
Frank E. Buntz, of Cleveland, Ohio.
After luncheon the delegates went into
secret session to take up the business
of the association, which includes a num-
ber of proposed amendments, the pri-
mary one of which is to make it obliga-
tory that each student spend four years
in a medical college, and that no credit
be allowed for anything except for time
actually spent in such college. This
amendment was adopted in executive ses-
sion by an almost unanimous vote. The
association adjourned to meet next year
at Cleveland, Ohio.

Dr. Henry B. Ward, of Lincoln, Neb.,
was elected president to succeed Dr.
George M. Kober, of this city. Dr. Fred
C. Zappie, of Chicago, was again chosen
secretary-treasurer.

JAPANESE CRUISERS CHITOSE AND BARON KUROKI, MIKADO'S STOUT FIGHTERS, ARRIVE

EXPOSITION TALK ABOUT THOS. RYAN

Politicians Discuss Bond Issue
Report and What Is
Behind It.

ALL BASED ON A DISPATCH

Complaint as to High Hotel Rates
in Norfolk—Unwritten Law
Doomed.

BY WALTER EDWARD HARRIS.
WASHINGTON, D. C., May 6.—A New
York paper of to-day contains a dispatch
from Norfolk to the effect that Thomas
P. Ryan, a native of Virginia and prob-
ably New York's wealthiest resident, is
looking to succeeding Senator Daniel in
the Senate from Virginia, and will buy
the seat by taking the bonds which the
Jamestown Exposition Company is trying
to float, amounting to \$400,000. The dis-
patch says that Mr. Ryan was visited
by President Tucker and C. Brooks John-
ston last week, and that he agreed to
take the bonds of the company, securing
himself by a mortgage on the real estate
of the company. While it is possible that
Mr. Ryan will come to the relief of the
exposition by taking a portion of the
bonds, there is reason for believing that
the exposition management is not yet in-
formed that he will take all the issue
of \$400,000. President Tucker is in Wash-
ington to-day.

The other part of the story to the
effect that Mr. Ryan has hopes of suc-
ceeding Senator Daniel, and wants to
popularize himself with Virginians by
taking exposition bonds, is regarded as
about as ridiculous as anything which
has appeared in type concerning Mr.
Ryan's political ambitions, which is
superficial. A Virginia politician of
prominence in Washington last week
was discussing the rumors of Mr. Ryan's
plans to come to the Senate from Vir-
ginia, succeeding Senator Daniel.

"I do not believe any man," he said,
"no matter how good he may be, and no
matter how able he may be, and intel-
lectually or as a politician, could get a
dozen votes among the Democrats of
the Virginia Legislature if he were to
run against Senator Daniel."

The Unwritten Law.
"The unwritten law is doomed in
Virginia," said one of the best known
lawyers in Virginia yesterday. "It is
destined to pass as completely as
superstition. In England nothing is
construed to justify private ven-
geance. The law is made to protect
a remedy for every wrong, and the
man who undertakes to punish crime
privately—to take the law into his
own hands—is regarded as a criminal,
and punished."

"The case of Judge Loving, of Nel-
son, who killed young Estes, the other
day," he continued, "illustrates the
dangers of any system based on pri-
vate vengeance. Judge Loving is one
of the best men in the world, a good
father and citizen. He believed he was
discharging his duty. I doubt not,
when he killed Estes, I doubt not,
light on the case makes it plain that
whether he was not seriously to blame.
It looks like he acted with too great
haste, and assumed facts which cannot
be proven, and which may not have
been facts. It is such incidents as
these which have brought about a state
of public sentiment which is doing
very much to my mind that not only
the 'unwritten law,' as applied to cases
where the husband avenges a wrong
done his wife, or the father one done
his daughter, but that Lynch law also
is destined to disappear in this coun-
try."

Back from Havana.
Representative William A. Jones and
Mrs. Jones have returned from a brief
trip to Havana, which they took re-
cently for the benefit of Mr. Jones's
health. Mr. Jones is considerably im-
proved, but he is not well, and is con-
templating another trip to Cuba in a
short time. Later he and Mrs. Jones
may go to Japan, returning, of course,
in time for the convening of Congress
in December.

The exorbitant charges encountered by
all visitors to the Jamestown Exposition
to-day, is observing the anniversary of
the wound he received at the battle of
the Wilderness, forty-three years ago to-
day. The Senator is not celebrating the
event in any manner, but his observation
of the day is insisted upon by the "gangs"
of the day, which is always a grim reminder
of that terrible day at the Wilderness.
John W. Daniel, Jr., and Edward

BARON KUROKI.
One of the many Japanese heroes of
war with Russia.

Daniel, sons of the Senator, have just
returned from a short European trip.

EXPOSITION CAN GET ALL MONEY NEEDED

(Continued from First Page.)

these waters, served to create a great
interest in the visitors, who, by the
way, got here earlier than they were
expected. Thousands viewed them
from both shores of Hampton Roads
as they steamed into the harbor, and
they were regarded with no less en-
thusiasm by those aboard the other for-
eign and American war-ships at an
anchor off the Exposition grounds.
While the officers of the Japanese,
American and other vessels will ex-
change official visits, it is interesting
to speculate on the possible mixing
of the Jap jacks with those
of other nations. It is probable that
the pace of their stay here will be
lively enough, but it is improbable
that they will be on more than cordial
terms with those of other nations.

At any rate, they have drawn to
themselves more attention than did
the other naval visitors to the
exposition during the first few hours
of their stay, and they will likely be
largely in the exposition eye until they
finally leave. The Tsukuba, a new
ship, was built at Kur entirely of
Japanese construction and equipment.
She is of 4,000 tons displacement and
22.2 knots speed. The Chitose is also
a modern vessel of great size and
speed. Prominent Japanese here to
meet the ships were Dr. Jokichi Takai-
mine, Consul-General Chasoo Koke, of
New York; Mr. F. Pudel, Commander
Takeuchi, Commander Taniguchi, Mr.

"The Blood Is The Life."

Science has never gone beyond the
above-stated statement of scripture. But
it has illumined that statement and
given it a meaning ever broadening with
the increasing breadth of knowledge.
When the blood is "bad" or impure it
is not alone the body which suffers
through disease. The brain is also
affected, and many an evil deed or impure
thought may be directly traced to the
impurity of the blood. Poul's Impure Blood
can be made pure by the use of Dr.
Pierce's Golden Medical Discovery. It
purifies and purifies the blood thereby
curing pimples, blotches, eruptions and
other cutaneous affections, as eczema,
tetter, or salt-rheum, hives and other
manifestations of impure blood.

In the cure of scrofulous swellings, en-
larged glands, open eating ulcers, or old
sores, the "Golden Medical Discovery" has
performed the most marvelous cures. In
cases of old sores, or open eating ulcers,
it is well to apply to the open sores Dr.
Pierce's All-Healing Salve, which pos-
sesses wonderful healing potency when
used as an application to the sores in con-
junction with the use of "Golden Medical
Discovery" as a blood cleansing con-
stitutional treatment. If your druggist
don't happen to have the "All-Healing
Salve" in stock, you can easily procure it
by inclosing fifty-four cents in postage
stamps to Dr. R. V. Pierce, 623 Main St.,
Buffalo, N. Y., and it will come to you by
return post. Most druggists keep it as
well as the "Golden Medical Discovery."

You can't afford to accept any medicine
of unknown composition as a substitute
for "Golden Medical Discovery," which is
a medicine of known composition,
having a complete list of ingredients in
plain English on its bottle-wrapper, the
same being attested as correct under oath.
Dr. Pierce's Pleasant Pellets regulate
and invigorate stomach, liver and bowels.

Takata, Mr. Gukutomi, correspondent
of the Osaka Asahi, Mr. Omon, Mr.
Jihel Hassiguchi, Japanese writer, Mr.
Isimura.

TAFT IS HIGHLY GRATIFIED, HE SAYS

Genial War Secretary Predicts
That Show Will Be Great
Success.

[Special to The Times-Dispatch.]

NORFOLK, VA., May 6.—Secretary of
War Taft was the guest of honor at the
Jamestown Exposition this afternoon.
Coming over from Old Point Comfort,
accompanied by Mr. Barton Myers, one
of the governors of the exposition, he
was received by the exposition officials
in the auditorium. After this he wit-
nessed the dress parade of the Twenty-
third Infantry on Lee Parade. It was
the first parade by the Twenty-third on
the beautiful grounds, and it will be a
part of the daily life of the exposition
in future.

The War Secretary also inspected the
government and other buildings at the
exposition, but his visit was in no way
official. He has been a friend of the
exposition from the beginning. He ex-
pressed himself as being highly gratified
at the appearance of things on the
grounds, and predicted that the expo-
sition will be a great success.

He probably would not have visited
the show had not one of the governors
tendered him a personal invitation.

SPORTSMEN AT THE EXPOSITION

First of Series at Jamestown.
Delegates Are Coming to
This City.

NORFOLK, VA., May 6.—The first con-
vention of the many scheduled to take
place at the Jamestown Exposition held
its first meeting to-day in the directors'
room of the Auditorium, when the League
of American Sportsmen, whose mem-
bership is all from every State in the Union,
and are selected by the Governors of the
States, assembled. The delegates came
together once a year to discuss means
for protecting game and fish. The en-
tire morning session and that held to-
night were devoted to hearing the re-
ports of the delegates. After another
meeting to-morrow morning the conven-
tion will be addressed by ex-Congressman
Shires, of Pennsylvania, on the advan-
tages of having a Federal law for protect-
ing migratory birds. Such a law was
proposed in the last Congress.

The members present at the conven-
tion will be the guests of Rear-Admiral
Evans, a member of the league, on
board the Connecticut to-morrow af-
ternoon. The convention will close to-
morrow night. The visiting dele-
gates will be entertained at dinner Wednes-
day at the Westmoreland Club, in
Richmond, their hosts being the Vir-
ginia delegates. President Roosevelt
is also a member of the league.

Among those present were Rear-Ad-
miral Evans, Hon. Preston Lea, Governor
of Delaware; Admiral Thomas
Perry, U. S. N., Port Deposit, Md.;
Lynn R. Mookins, Baltimore, Md.;
Thomas W. Blackstone, Accomac; B. G.
Ricketts, Newport News, Va.; L. T.
Christian, Richmond; M. D. Hart,
Richmond; C. O. Saville, Richmond; Dr.
R. T. S. Palmer, Department of Agri-
culture, Washington, D. C.; B. Floyd,
Bureau of Fisheries, Washing-
ton, D. C.; Hon. George Shires, ex-
member of Congress, Washington, D. C.;
Dr. W. S. Harkins, Washington.

KUROKI COMES TO FAIR THIS WEEK

Big Review at Exposition in
Honor of Conqueror of
Yalu Fight.

NORFOLK, VA., May 6.—When Gen-
eral Kuroki and his staff of naval and
military aids come to visit the Jamestown
Exposition this week, they will doubtless
be impressed since no Japanese ever
allows any one to know what his impres-
sions really are, the exposition officials
and the officers over at Fortress Mon-
roe will have to accept the delicately
turned compliments that will be in-
evitably as genuine as the truth.

In view of his rank and occupation,
General Kuroki will be to a great extent
monopolized by the army during his stay
here. The Chamberlin, at Old Point
Comfort, will probably be made his quar-
ters lodging-place, and the officers' quar-
ters in the fort will see much of him.

TO RACE AT JAMESTOWN.

The Dorothy Q. Will Also Try for
the Lipton Cup.
BRISTOL, R. I., May 6.—The Dorothy
Q. will be launched at the six o'clock
race on this evening. She is undergoing
trials under the eye of Captain Nat Her-
reshoff, preparatory to racing for the
Lipton cup here and the King's cup at
Jamestown later. She is a very small
boat, but has easy, graceful lines, and
her appearance is an important event
in American yachting as she is the first
small boat designed by Herreshoff to
the universal rules.

Chilean Vessel Arrives.
[Special to The Times-Dispatch.]
NORFOLK, VA., May 6.—The Chilean
cruiser Ministro Zaldano, representing
the navy of Chili at the Jamestown
Exposition, passed in Cape Henry at
1 o'clock this afternoon, and shortly
thereafter dropped anchor in the road.

We are certainly excelling ourselves and
everybody else in the present quality of Ar-
buckles' Ariosa Coffee.

No such quality of coffee
can be sold out of a bag, bin
or tin, or under any other
name by anybody in this town,
for anything near the same
price.

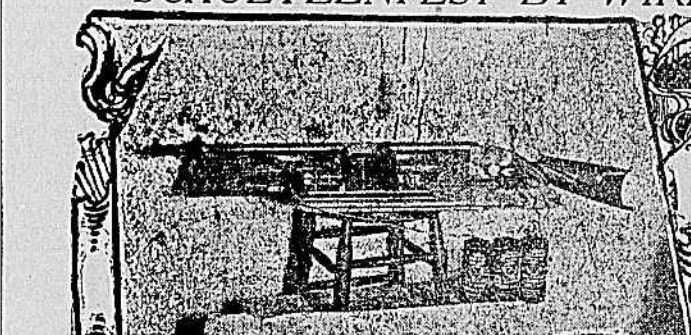

That's a strong statement, but you can
take our word for it, and we are the largest
dealers in coffee in the world. Another thing
—the egg coating on ARIOSA COFFEE
does not improve its appearance but preserves
the flavor and aroma.

Remember that ARIOSA is
not sold to look at, but to drink.

Complies with all the requirements of the
National Pure Food Law. Guarantee 2041
Filed at Washington.

ARBUCKLE BROS., New York City.

ROOSEVELT OPENS THE SCHUETZENFEST BY WIRE

The rifle in position at Charleston,
S. C., fired by electricity, and the man
who pressed the button.

Touched Button and Rifle Hit the
Target, Echo Coming by
Telephone.

CHARLESTON, S. C., May 6.—Presi-
dent Theodore Roosevelt touched a but-
ton in the White House to-day at 2:37
P. M. and formally opened the fifth tri-
ennial Schuetzenfest of the National
Schuetzenbund of America. The button
was electrically connected with a rifle
on the range at the Schuetzenplatz in
this city, and the detonation that fol-
lowed was heard in the White House by the
aid of a telephone a minute later, the
result of the shooting being communi-
cated to the President. Three shots were
fired at a ring target, the scores being
24, 21 and 24. Total, 69 out of a possi-
ble 100.

The final result was announced to the
President by Governor M. F. Ansel, of
South Carolina, who stood near, and af-
ter the congratulations and felicitations
were exchanged the President was en-
abled to hear "Country, 'Tis of Thee,"
"The Star Spangled Banner" and
three cheer for the President, given by
the people just outside of the shooting
grounds.

The opening of the fest was preceded
stead off the exposition grounds. Theo-
dore Roosevelt, who came from Cape Henry
by an anchorage by an American tor-
pedo-boat. The customary salutes
were exchanged between the visit and
"Port Monroe" and the flag ship Connecti-
cut of the American fleet.

WILCOX FOR JUDGE.

Bar of Norfolk Will Urge Gov-
ernor to Name Their Choice.

NORFOLK, VA., May 6.—At a meet-
ing of the bar of Norfolk, held in the
Court of Law and Chancery, at the
City Hall, this afternoon, it was unan-
imously decided to endorse J. West-
more Wilcox for appointment by Gov-
ernor Swanson as Judge of the Cir-
cuit Courts of Norfolk city and
Hansemond and Southampton counties,
to succeed Judge R. R. Prentiss, ap-
pointed to the State Corporation Com-
mission.

ARREST MAN FOR MURDER

Wife of Durham Negro Had Been
Laid Out for Burial When Found
DURHAM, N. C., May 6.—Laid out for
burial, with photograph of her husband
on her breast, the body of Lizzie Lutz-
hild (colored) was found in her bed this
morning.
Finger prints on her throat showed
that she had been strangled. Her
husband, a row near Danison Junc-
tion, was without bail. Evidence against him is
very strong.

ENGINEERS GET MORE PAY

Southern Railway Co. Grants In-
crease—Men Highly Grati-
fied.

[Special to The Times-Dispatch.]
SPENCER, N. C., May 6.—Effective at
once, the locomotive engineers on the South-
ern Railway throughout the system have
been granted an increase in wages, amount-
ing to ten per cent. for passenger engines
and six per cent. for freight men, and fifty
cents and forty-five cents, respectively, per
hour for overtime. In the aggregate the
pay-roll for engineers will be increased
many thousands of dollars per month, and is
highly satisfactory to the employees.

Kills Man and Flees.
[Special to The Times-Dispatch.]
SOUTH FOSTON, VA., May 6.—Wm.
Wade, aged nineteen, shot and killed
John Toyser, aged thirty-five, while
engaged in a row near Danison Junc-
tion last night. Both men are colored.
Wade escaped, but was caught at
Houston.

Nothing for Grand Jury to Do.
[Special to The Times-Dispatch.]
